

## SVHC label free Modified Silicone Foam Control Agents

November 2020

Silicone-based products with a D4, D5 and D6 cyclic siloxanes content of 0.1% or more must be highlighted on EU Safety Data Sheets as SVHC (Substance of Very High Concern). These non - hazardous foam control agents have been specially formulated to contain less than 0.1% D4, D5 and D6 cyclic siloxanes, without compromising performance or compatibility.

Dispelair® Grade	Type	Recommended Applications
<b>CF 407 / CF 507</b>	Emulsion	Polymers, gloss paints, adhesives and wood coatings. CF 507 better compatibility
<b>CF 617 / CF 697</b>	100%	High performance for pigment dispersions, inks and gloss paints. CF 697 better compatibility
<b>CF 629</b>	Solvented	Printing inks, polymer emulsions, solvent free and solvent borne coatings
<b>CF 690</b>	Emulsion	Waterborne decorative coatings
<b>CF 766</b>	Emulsion	Waterborne decorative coatings, adhesives and wood coatings.
